PROFESSIONAL SUMMARY

Flutter Developer with **1.6+ years of experience** building **scalable cross-platform applications**. Skilled in **REST API integration, Provider-based state management, JWT authentication, pagination, lazy loading** and **performance optimization**. Experienced in **Clean Architecture and MVVM**. Follow **coding best practices, maintainable design principles**, and **collaborative development standards**. Committed to delivering **high-quality solutions** aligned with **business objectives** and **company goals**.

TECHNICAL SKILLS

- **Languages & Frameworks:** Dart, Flutter SDK, Java
 - **State Management:** Provider, setState, Riverpod, BLoC, GetX
 - **Architecture:** Clean Architecture, MVVM
 - **Networking & APIs:** RESTful APIs, JSON parsing, HTTP/Dio
 - **Backend & Cloud Services:** Firebase (Authentication, Firestore, Cloud Storage, FCM)
 - **Local Storage:** Shared Preferences, Secure Storage, SQLite, Hive
 - **Third-Party Integrations:** Google Maps SDK, Payment Gateway Integration
 - **Tools & Platforms:** Git/GitHub, VS Code, Android Studio, Postman, Swagger, Figma, JIRA
 - **Project Management & Methodologies:** Agile, Scrum, Sprint Planning
-

PROFESSIONAL EXPERIENCE

Flutter Developer

Cortracker IT Private Limited | *Hyderabad, India* | *Nov 2024 – Present*

Project: COR HR

- Developed **cross-platform** enterprise app using **Flutter** (Android, iOS, Web, Desktop) with single codebase.
- Converted **UI/UX Figma designs** into responsive, pixel-perfect UI screens.
- Implemented **MVVM Architecture** with **feature-based** modular structure.
- Integrated secure **REST APIs** using a **centralized ApiClient** with base URLs, common headers, and token management, error management, and request/response logging.
- Implemented **Role-Based Access Control (RBAC)** using **PermissionSet** with **Boolean flags**.
- Managed **API loading, success, and error states** using **Provider** for reactive UI updates.
- Implemented **pagination** and **lazy loading** for large datasets, improving screen load time by **~30–40%**.

- Built **interactive dashboards, KPI cards, and charts** using **fl_chart** and reusable widgets.
- **Optimized performance** using efficient **state management** and minimized widget rebuilds.
- Implemented **robust error handling, timeout logic, and network connectivity checks**.

Project: COR ERP

- Implemented **Clean Architecture** with **feature-based** modular structure across **11+** business modules.
- Integrated secure **REST APIs** into Flutter with **JWT-based authentication** and multi-level role-based access control (**RBAC**).
- Managed API **loading, success, and error states** using **Provider** for reactive UI updates.
- Implemented **pagination** and **lazy loading** to efficiently manage large employee datasets.
- Implemented comprehensive **error handling** for network failures, **timeout logic**, and **network connectivity checks**.
- Optimized performance using efficient **state management** and minimized **widget rebuilds**.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

Narasaraopeta Engineering College | *Narasaraopet, India | June 2024*

GPA: 8.2/10

Intermediate (MPC)

Sri Saraswathi Junior College | *Ongole, India | May 2020*

GPA: 8.5/10

Secondary School Certificate (SSC)

Vikram High School | *Ongole, India | May 2020*

GPA: 9.5/10

CERTIFICATIONS

Flutter & Dart - The Complete Guide | *Udemy | 2024*

App Development with Flutter & Firebase | *Coursera | 2024*

Figma UI/UX Design Essentials | *Udemy | 2024*

Git & Version Control Essentials | *LinkedIn Learning | 2024*
